DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 14, and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by the admitted prior art of Figures 1-3, and as disclosed in the Specification on pages 1-4.

Response to Arguments

3. Applicant's arguments filed in the Amendment of April 7, 2003 have been fully considered but they are not fully persuasive. The applicant's arguments with respect to claims 2-13, 15, 16, and 18-20 are noted. However, claims 1, 14 and 17, fail to distinguish over the admitted prior art of record. There are no particulars of the one-way bearing recited in those claims. As such the rejection of those claims are deemed proper.

Allowable Subject Matter

4. Claims 2-13, 15, 16, and 18-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The primary reason for the allowable subject matter of claims 2 and 15, is the inclusion of a one way bearing. For claims 18-20, it is the inclusion of joined ends having loops and the linkage has a cylinder, a screw lock, and a plate supported within the loop. For claim 5, it is the inclusion of a line made of flat webbing.
